## Aims and Objectives

- To provide routine care, at appropriate intervals, for our patients and to promote good oral health by fostering an understanding of its benefits in general well-being.
- To supply patients with all the information they need to understand and be emboldened to be participate and act in their own best interest.
- To meet the needs of our patients by providing high quality examination and treatment procedures where required.
- To ensure that when advice or treatment needs exceed the capabilities to that which we can provide, the patient will be fully informed and receive efficient, caring, and appropriate referral with their consent.
- To participate in any local or national health care initiatives or directives aimed at the wider population.
- To maintain a continuous programme of training and audits to ensure that our team have the necessary skills and competencies to carry out their duties whilst remaining focused on the core value of prioritising the best interests of the patients.
- To continually monitor the patients' experiences and aim to continuously excel in the essential standards of quality and safety.
- We will continually set and monitor targets for our performance.
- To invest in property, equipment, and technology and to innovate processes based on measured business cases.
